Dear Ms. Opacic,

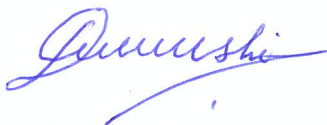

We would like to thank you for your reply (307320), of 29.04.2013 and the follow-up by the European Parliament.

May we ask for your attention on the following issues:

- We believe a coordinated effort at the European level is needed towards the Albanian Government. **May we ask you to transmit the attached letter for information to the European Parliament Subcommittee on Human Rights.** We addressed this letter to the Council of Europe, inviting the Committee of Ministers that supervises the execution of judgments of the European Court of Human Rights to coordinate action with the European Union and condition the integration process with the immediate respect and good management of property rights as one of the foundations of a well-functioning democracy;
- We are very critical towards the Strategy on property that the Albanian Government has adopted. As we have argued several times the strategy as it stands today does not solve the problem, quite the opposite. The Government's platform infringes in a flagrant way article 181 of the Constitution as it aims to accomplish the unlawful transfer of properties of legitimate owners to representatives of the oligarchy of the politicians. In this situation there is no democracy, state of law, social stability and integration in Europe. You'll find our main arguments in the attached letter and therein mentioned documents/links. **Please inform the Subcommittee on Human Rights on our position towards the Albanian Government strategy on property.**

We remain at your disposal for any additional information.

Respectfully,

Rrapo Hajredin Danushi
